# WINTER HIMACHAL

Delhi → Sissu → Keylong → Jispa → Kasol → Delhi

## TRIP ITINERARY | 24 DECEMBER 2026 – 2 JANUARY 2027

| | | | |
|---|---|---|---|
| **Group** | 8–12 people | **Vehicle** | 12–17 seater Tempo Traveller |
| **Start** | Delhi pickup: 24 Dec, 6:00 PM | **Return** | Delhi on 2 Jan (time to confirm) |

### DAY 1 — Thu, 24 Dec | Delhi pickup & overnight drive

• 6:00 PM: Meet the Tempo Traveller in Delhi and begin the overnight drive toward Sissu via the Manali route.

• Keep warm layers, water, snacks and personal medicines accessible. Plan safe driver breaks.

### DAY 2 — Fri, 25 Dec | Arrive in Sissu

• Target arrival around 8:00 AM, subject to traffic, weather, road status and restrictions.

• Check in and rest after the overnight journey. Keep sightseeing light and only explore if conditions are safe.

### DAY 3 — Sat, 26 Dec | Sissu local day

• Explore Sissu village and nearby viewpoints only where access is open and safe.

• Keep plans flexible for snow, ice, wind and cold; confirm local access with your accommodation or driver.

### DAY 4 — Sun, 27 Dec | Sissu → Keylong

• Planned departure: 11:00 AM. Target arrival: around 3:00 PM.

• Check in and explore locally only if daylight and conditions allow. Keep a buffer for winter delays.

### DAY 5 — Mon, 28 Dec | Keylong → Jispa

• Original plan: depart 5:00 PM, arrive around 7:00 PM.

• **Winter safety adjustment:** avoid planning this mountain transfer after dark. Ask the driver/local authorities about conditions and aim to travel earlier in daylight; proceed only if confirmed safe.

### DAY 6 — Tue, 29 Dec | Jispa local day

• Flexible rest and local-exploration day. Visit nearby areas only if accessible and safe in winter.

• Check weather and road updates; avoid isolated or icy routes without local guidance.

### DAY 7 — Wed, 30 Dec | Jispa → Kasol

• Planned departure: 7:00 AM via Manali/Bhuntar. The original 2:00 PM arrival target is optimistic and highly dependent on winter road conditions.

• Allow generous time for stops and delays. Do not rely on the target arrival time for fixed bookings.

### DAY 8 — Thu, 31 Dec | Kasol / Chalal & New Year’s Eve

• Explore Kasol and, if the walking path and weather are suitable, visit Chalal during daylight.

• Celebrate locally. Stay in Kasol or Chalal only after confirming accommodation, access and late-night transport.

### DAY 9 — Fri, 1 Jan | Malana OR Manikaran day trip

• Choose one option based on weather, access and local advice: Malana, or Manikaran Sahib and the hot springs area.

• Return to Kasol for the night. Check transport and access before leaving; do not assume roads or trails will be open.

## DAY 10 — Sat, 2 Jan | Kasol → Delhi

• Return to Delhi by Tempo Traveller. Departure time is not yet confirmed; leave as early as practical and allow a substantial winter-delay buffer.

• If possible, reach Delhi on 2 Jan and stay overnight to protect the flight the next evening. Confirm the drop-off location.

# Transport & onward travel

## Train to Delhi (separate from the hired vehicle itinerary)

22917 BDTS–NZM SF Express: departs Bandra Terminus on 23 Dec at 12:45 PM and is planned to arrive at Hazrat Nizamuddin on 24 Dec at 8:35 AM. These are user-provided details; recheck the live railway schedule and station details before travel.

## Flight after the road trip (separate from the hired vehicle itinerary)

SpiceJet SG105: Delhi (DEL) 9:00 PM → Pune (PNQ) 11:10 PM on 3 Jan 2027, direct. These are user-provided details; verify with the airline before departure.

# Winter travel checklist

■ Confirm the vehicle fits 8–12 passengers plus luggage; clarify fuel, driver allowance, tolls, permits, parking and overnight charges.

■ Reconfirm road status daily with the driver, accommodation and local authorities. Timings are targets, not guarantees.

■ Carry insulated layers, gloves, cap, waterproof shoes with grip, sunglasses, water, snacks, power bank and personal medication.

■ Keep accommodation confirmations and emergency contacts available offline; maintain phone battery and some cash.

■ Avoid night driving on mountain roads; do not continue if the driver considers conditions unsafe.

■ Keep flexibility for snowfall, ice, traffic restrictions and road closures.

# Important note

This is a planning document, not a live road-status report or confirmed booking. High-altitude roads in late December may be affected by snow, ice, restrictions or closures. The driver’s local assessment and official advisories should take priority over target timings. No permit, accommodation or transport booking is implied.
